Company profile

"Shoket aluminum" is one of the biggest manufacturing companies in Israel. We produce hundreds of tons of profiles each month and thousands of profiles in shapes and sizes for any purpose. We specialize in decorative profiles for parquet floors, ceramics, high-tech industry, acoustic ceilings, windows and doors and much more.

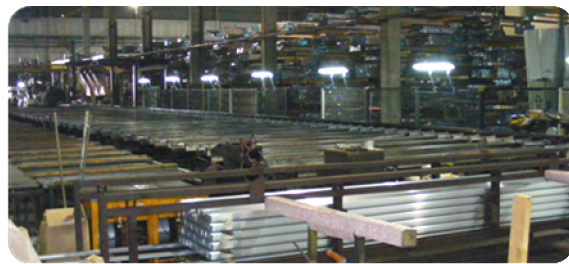

"Shoket" has over 8000 profiles patterns and shapes to meet with the ever growing demands of the fast growing area of outside constructions and the creative world of the interior design.

In our growing world, the demand for quality aluminum profiles is increasing, but quality is not the only thing you're looking for. You need your products to arrive at your building sites and warehouses as fast as possible and that's where we enter: high quality profiles in minimum time from our factory to your European destination.

"Shoket" manufactures her profiles under the SII (standards institution of Israel) supervision and hold the certifications and standard testing and approvals (ISO).

We can also design and manufacture profiles suited for your specific design whether it's inventing a new product or improving an old one, all the way from the drawing phase through the manufacturing process and in the end – to your company and the end users.
